

## Perfect Custom Panels & LumaVUE

### Panels as easy as 1-2-3

Wireworks Perfect Custom Panel Program is an easy, fast and efficient way to enjoy customized panels designed to exactly meet the needs of any audio and video system. It removes all the stress of having custom panel products made. It enables your specific needs to be met on time and without confusion or errors. The Perfect Custom Panel Program offers a 1-2-3 way of translating your ideas into panel reality, regardless of panel size or complexity.

Make your installations look as good as they really are with Wireworks Perfect Custom Panels! Appearance is important but great appearance with completely reliable functionality is vital!

### No hassles

Wireworks expanded Perfect Custom Panel program eliminates all the hassles associated with custom panels. We've developed a process that is simple and quick. The end result is a great looking product that reflects your professionalism.

We have eliminated punching, pop rivets and nuts and bolts typical of panels manufactured elsewhere. All cutouts and engraving are flat-bed machined and screw holes

are tapped. Gone is the distortion which detracts from the appearance and performance of your panels.

Through the use of our CAD and CIM (Computer Integrated Manufacturing) systems, Wireworks will make your panels a reality — in record-breaking time. Simply send us a hand drawn sketch, drawing, or an AutoCAD, Visio or just about any file. We'll take it from there.

It's fast! Wireworks is usually able to supply you with a quotation within just a few hours. We can deliver your panel order as fast as you need it - probably faster than anyone else can. Your deadlines are as critical to us as they are to you.

### Panels to make you look good

Perfect Custom Panels Program is tailored to your needs! We'll gladly provide the exact level of service you require - complete panels ready for installation – all the connectors, paint filled engraving in any color you need, or laser engraving, including diagrams and logos. And we're fully equipped to provide complete wiring as well for the simplest drop-in solution available!

Above all, we will make you look great.

# Perfect Custom Panels

- The stress-free program
- Solid, rigid, 0.125" aluminum with a beautiful brushed finish. Other thicknesses to order
- Choice of standard finishes – black anodized or clear anodized
- Gang plates also available in standard white
- Custom matched color finishes available to order
- Panels available up to 30" x 36"

## Gang Plates

Gang Plates are available in 1 to 6 gang sizes with larger sizes to order. Standard colors are black anodized with white paint fill and clear anodized with black paint fill. Countersunk mounting holes and beveled edges are standard for a professional look.

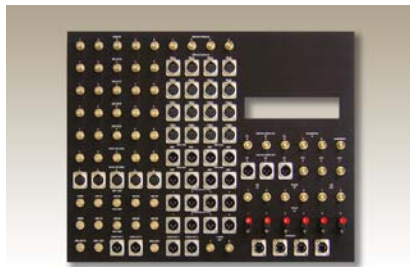

## Rack Panels

Sized to mount in all industry standard 19" EIA equipment racks, Rack Panels are available in 1 to 12 rack units with flat or, up to 4 RU flanged panels. A standard fine brushed anodized rigid aluminum providing long term durability and appearance will enhance your installation.

## Wall Panels

Available in sizes up to 30"x36", Wireworks Wall Panels can be mounted directly on the wall or on junction boxes whether they are surface or flush mounted. Wireworks wall panels are available with a beautiful brushed finish in 1/8" aluminum, or thicker material by special order. Add beveled edges or radius corners to complete a really impressive installation.

## Floor Box Plates

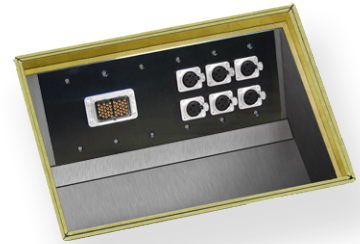

Floor boxes often need custom panels to exactly suit your installation and to provide the correct connectors in your chosen floor boxes. Wireworks makes panels for all the commonly used floor boxes (and some

- Precision paint filled or laser engraved
- Gang, rack, wall box, floor box and custom sized panels easily available
- Virtually unlimited options
- All panels are built to your exact specification
- Fast delivery
- All plates and panels carry Wireworks lifetime warranty against defects in materials and workmanship

that are not so common!) Where standard gang size panels are not appropriate, custom sized panels, supplied with the correct mounting holes are just the thing.

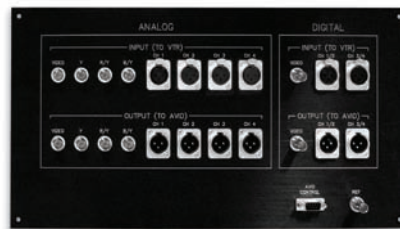

## Custom Sized Plates

Sometimes you need a special panel that may not only have custom dimensions, but a custom shape too. Wireworks has the answer! Let us know exactly what you want to see and we will take it from there. Beveled edges and radius corners are also available.

Your company logo, legends and other required engraving can all be presented on durable machined panels. Just let us know what you need and Wireworks will make it happen.

If you prefer your Perfect Custom Panels pre-wired to speed and ease your installation, look no further. Wireworks can provide this complete service.

We will ship your panels ready for installation, saving you precious on-site time.

Make Wireworks your Perfect Custom Panel partner.

# LumaVUE

Here's another bright idea from Wireworks! LumaVue – the panels that can help you see in the dark.

LumaVue is the new, first-to-market, custom panel product that can be rear illuminated for instant identification - the perfect solution for use in floor pockets, back stage, orchestra pits and other locations where there is limited visibility.

Wireworks' LumaVue features non-metallic cell cast acrylic, which provides maximum durability. Panels are rear engraved so the markings cannot be marred or destroyed. The engraving is readable

and visible on its own, even without the use of rear illumination. The panels will not rust or tarnish and are offered in 10 high impact colors to match or contrast the venue's décor. Colors include red, burgundy, blue, navy, almond, white, grey, black, gold and silver. LumaVue Plates and Panels are available in one eighth or one quarter inch thickness with a gloss or matte, no glare finish.

Reverse legend engraving captures ambient room light to provide a muted illuminant effect on the rear engraving for easy intelligibility. By rear lighting, the engraving glows with a gentle easy-read appearance without harshness. LumaVue is perfect for connection panels, switch panels and diagrams of any kind - virtually any graphic, logo or picture can be used to create unlimited design possibilities. Your company name and logo can add a distinctive touch.

Wireworks LumaVue Custom Panels and Plates offer a
