

SPEN and SPE5 Meyer Sound Loudspeaker Cords

Wireworks new SPEN and SPE5 Loudspeaker Cables are designed specifically for use with Meyer Sound's MM-4 and MM-4XP speakers respectively. SPEN cords can also be employed anytime small, secure speaker cords are required.

SPEN cords are designed for use with Meyer Sound's MM-4 speakers and utilize 2-pole EN3 water-resistant connectors. Manufactured in a variety of standard lengths, SPEN cords are available in both link and extension cable configurations. Each assembly features two 16-gauge, 26-strand conductors in a round, matte-finish flexible jacket to deliver high-quality speaker level signals with minimal signal loss. SPEN assemblies are

also available with Neutrik speakon NL4 connectors.

SPE5 cords are constructed to accommodate both the power and audio signal requirements needed for

Meyer Sound's MM-4XP Self-Powered Miniature Loudspeakers. The cords feature a 5-pole EN3 water-resistant connector on each end. One 18-gauge pair provides the power to the speaker and one 22-gauge shielded pair supplies the audio signal in a flame-retardant jacket.

The EN3 connectors feature gold-plated contacts for excellent signal

transmission in a tough thermoplastic fiber body with a positive locking ring. Meeting a number of harsh weather environmental ratings, EN3 connectors provide water-resistant speaker connections for a wide range of both indoor and outdoor applications such as mobile broadcast, sports broadcast and live events.

As with all Wireworks cable assemblies, the new speaker cable assemblies can be manufactured with Wireworks Bandits®, shrink-tube cable markers custom printed with your company name or logo, for easy identification.

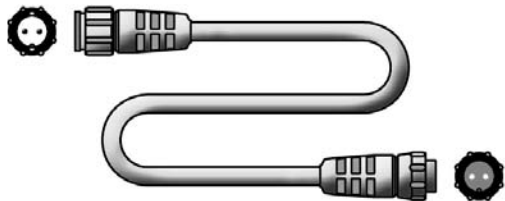

- SPEN designed for Meyer Sound MM-4 speakers, two 16 gauge conductors
- SPEN5 designed for Meyer Sound MM-4XP speakers, 18 gauge power pair, 22 gauge signal pair
- Small, water resistant EN3 connectors
- Gold-plated contacts ensure excellent signal transmission
- Both link and extension cable versions
- Standard length from 2 to 50 feet, other lengths upon request
- Wireworks Bandits® custom printed cable markers available
